Professional Experience

Practice Manager and Practice Nurse

Medical practice, Sydney

June 2025 - Present

- Coordinate liquid nitrogen replenishment, supplier accounts and equipment warranty support.
- Coordinate delivery preparations and protective equipment to support safe gas handling and practice accreditation.
- Maintain healthcare supplier and service-provider relationships through practice engagement and communication.
- Improved payment processes to shorten turnaround while managing Medicare, DVA and WorkCover billing.
- Reconciled practice financial records and prepared adjusted trial balances to support accurate financial reporting.
- Increased online engagement through search engine optimisation and AI search optimisation to promote practice services.
- Expanded responsibility into IT infrastructure, deployed internal software and launched a website supporting practice services.

- Develop administrative tools and policies, adapt workflows to clinician requirements, and train staff in business systems and practice processes.

Clinical Practice Nurse

Medical and dental practice

November 2024 - June 2025

Registered Nurse in Community Health

Community health service

March 2022 - November 2024

Selected Project

Email to Drive Automation

- Built a Google Apps Script workflow that saves email bodies as PDFs and preserves attachments in Google Drive.
- Implemented scheduled processing, execution locking and checks for existing files to support repeatable processing.
